

M CLARK BLANCHARD DDS

To My Dear Friends and Patients,

After careful thought and consideration, I have decided that the time has come for me to retire from dentistry. This decision was not easy, as I deeply value the trust and loyalty you have extended to me over the years. I have cherished the relationships I have built with each of you, and I am profoundly grateful for the moments we have shared together.

Finding an outstanding professional to carry on what we have built in this dental family has been an important and comprehensive process. I would never entrust your care, my patients and friends, to anyone in whom I did not have the utmost confidence in terms of honesty, integrity, technical skill, and a caring nature.

It is with great joy that I introduce you to Dr. Marcus Flynn.

Dr. Flynn grew up in Redmond and graduated from Redmond High School. He then went on to earn his degree from the Foster School of Business at the University of Washington. Following that, Dr. Flynn spent four years in Omaha, Nebraska, where he obtained his Doctor of Dental Surgery degree from Creighton University. For the past eight years, Dr. Flynn has been practicing dentistry just down the road, right here in Factoria.

You will find that Dr. Flynn's philosophies and ideals align perfectly with mine. His primary focus is always on what is best for the health of his patients. Unlike many of his contemporaries today, he has consciously chosen to steer clear of the corporate driven model, which we both believe does not always serve the best healthcare interests of the patient. Dr. Flynn is looking forward to expanding the current services we offer. His skill set will enable him to make crowns in one appointment, take advanced diagnostic imaging, and offer orthodontic Invisible Aligner Therapy. There is a good reason he is a recipient of Met Magazine's Top Dentist list. Rest assured when I say that he is the right person to succeed me. I have been so fortunate to have patients that are willing to travel long distances for their care at our office. That devotion is a testament to the environment we have worked hard to create, and that will not change with Dr. Flynn. I encourage you to come meet him!

Dr. Flynn, his wife Desiree, and their dog currently reside in Ballard. He is a big fan of all things sports and looks forward to getting to know you all. His warm and engaging demeanor will ensure that this transition is seamless.

I will continue to be available behind the scenes to support Dr. Flynn in any way I can. I'm pleased to let you know that Rebecca, Teresa, Evelyn, Tanya, and Kim will remain on board as well.
